Performance goal and investment strategy

The ERSTE RESPONSIBLE STOCK GLOBAL (CZK) serves as a feeder fund for the ERSTE RESPONSIBLE STOCK GLOBAL fund (master fund). Foreign exchange risks of the master fund are hedged within the feeder fund against the Czech crown. The master fund is an actively managed sustainability equity fund that invests throughout the world. The fund's structure is geared towards the MSCI World Index. The fund is managed based on a four-level investment process. At level 1 the investment universe is filtered based on ESG criteria defined within the "EAM ESG Rating". At level 2 companies are excluded through "Best in class" approach and exclusion criteria and discussed by an investment board. At level 3 portfolio is established and risk management is defined. At level 4 the EAM Engagement Policy takes place. Investing in shares of companies that are pioneers in terms of ecological, social and governance aspects is at the forefront of the investment decision. A holistic ESG approach also takes ethical aspects into account. Hedging against foreign currency risks is generally not provided, but is possible.
