+ Advantages

Broad diversification in selected global companies with little capital investment. Active stock selection based on fundamental criteria. Participation in the stability of developed markets as well as growth opportunities in global emerging markets. Opportunities for capital appreciation.

! Details you should be aware of

The price of the funds can fluctuate considerably (high volatility). Due to the investment in foreign currencies, the net asset value in Euro can fluctuate due to changes in the exchange rate. Capital loss is possible. Risks that may be significant for the fund are in particular: credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the fund can be found in the prospectus or the information for investors pursuant to § 21 AIFMG, section II, "Risk information".

Performance goal and investment strategy

The ERSTE STOCK GLOBAL invests in selected companies worldwide. The fund's investment process is based on fundamental business analysis. The selection of stocks takes place with a focus on high-quality growth companies without restrictions on size, industry affiliation and location. A concentrated portfolio is striven for as part of the portfolio construction process. Furthermore, the individual stocks are weighted independently of the market capitalization of the respective companies. A hedge against foreign currency risks is generally not provided, but is possible. Ecological and social factors as well as corporate management factors are integrated into the investment process.
