since inception

The chart shows the current fund share unit price (NAV) of the nominal value of an investment company proclaimed on that working day. Performances under 12 month have only little informative value. Information about previous performance does not guarantee future performance.

Source: Česká spořitelna, a. s.

 Advantages

Broadly diversified investment in biotechnology companies with little capital investment. Active stock selection based on fundamental criteria. Opportunities for capital appreciation. The fund is suitable as an addition to an existing equity portfolio and is intended for long-term capital appreciation.

 Details you should be aware of

The price of the fund can fluctuate considerably (high volatility). Due to the investment in foreign currencies the net asset value in Euro can fluctuate due to changes in the exchange rate. Capital loss is possible. Risks that may be significant for the fund are in particular: credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the fund can be found in the prospectus or the information for investors pursuant to § 21 AIFMG, section II, "Risk information".

**Performance goal and investment strategy**

The ERSTE STOCK BIOTEC invests primarily in companies in the developed markets from the field of biotechnology. The fund's investment process is based on fundamental business analysis. The majority of companies in this area can be found in the United States. As a result, Pacific and European equities tend to play a subordinated role in the fund. A hedge against foreign currency risks is generally not provided, but is possible.
