 Advantages

Investment in lucrative bonds of Central- and Eastern Europe. Broad diversification in issuances of selected countries, currencies and sectors. Foreign currency gains are possible. Gains are possible when interest rates fall.

 Details you should be aware of

Rising interest rates can lead to price declines. Due to the investment in foreign currencies, the net asset value of the fund can be negatively impacted by currency fluctuations. The addition of bonds with average or low credit ratings can lead to increased risk. Deterioration in credit ratings can lead to price declines. Capital loss is possible. Risks that may be significant for the fund are in particular: credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the fund can be found in the prospectus or the information for investors pursuant to § 21

Performance goal and investment strategy

ERSTE BOND DANUBIA mainly invests in government bonds from Eastern-, Southeastern Europe, the former Soviet Union and Turkey. In addition to bonds in local currency, issues are held in hard currency (EUR, USD hedged in EUR). Depending on the market situation, local currencies are temporarily hedged against the euro. Ecological and social factors as well as corporate management factors are integrated into the investment process.

Upozornění na riziko podle rakouského zákona o investičních fondech 2011

Unless explicitly noted otherwise, performance figures for periods of less than ten years always start from the launch of the fund. Performance figures for periods of less than 12 months in particular are not indicative of a fund's development due to their short-term nature.

In accordance with the fund provisions approved by the Austrian Financial Market Authority (FMA), ERSTE BOND DANUBIA intends to invest more than 35% of its assets in securities and/or money market instruments of public issuers. A detailed list of these issuers can be found in the prospectus, para. II, point 12.
