Advantages

Broad diversification in selected corporate bonds with good to average credit ratings. Opportunity to earn an attractive, long-term return and high annual payouts. Gains are possible when interest rates fall.

Details you should be aware of

Rising interest rates can lead to price declines. Deterioration in credit ratings can lead to price declines. Capital loss is possible. Risks that may be significant for the fund are in particular: credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the fund can be found in the prospectus or the information for investors pursuant to § 21 AIFMG, section II, "Risk information".

Performance goal and investment strategy

ERSTE BOND EURO CORPORATE mainly invests in corporate bonds of European issuers with high to medium credit ratings, which are

denominated in euros. The rating (creditworthiness) of the bonds in the fund is primarily in the investment grade area. Any foreign currency risks are mostly hedged. Ecological and social factors as well as corporate management factors are integrated into the investment process.
