 <b>Advantages</b>	 <b>Details you should be aware of</b>
Broadly diversified investment in companies in emerging markets with little capital investment. Active stock selection based on fundamental criteria. Participation in global emerging market growth opportunities. Opportunities for capital appreciation. The fund is suitable as an addition to an existing equity portfolio and is intended for long-term capital appreciation.	The price of the funds can fluctuate considerably (high volatility). An investment in emerging markets has a higher risk potential than an investment in developed markets. Due to the investment in foreign currencies, the net asset value in Euro can fluctuate due to changes in the exchange rate. Capital loss is possible. Risks that may be significant for the fund are in particular: credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the fund can be found in the prospectus or the information for investors pursuant to § 21 AIFMG, section II, "Risk information".

Performance goal and investment strategy

The ERSTE STOCK EM GLOBAL invests primarily in companies based or doing business in global emerging markets. The fund's investment process is based on fundamental business analysis. When selecting stocks, the focus is on high-quality, high-growth companies. A hedge against foreign currency risks is generally not provided, but is possible.

Upozornění na riziko podle rakouského zákona o investičních fondech 2011

Since the history of the fund is very short, this performance chart is of little significance.

ERSTE STOCK EM GLOBAL may exhibit increased volatility due to the composition of its portfolio: i.e. the unit value can be subject to significant fluctuations both upwards and downwards within short periods of time.
