Advantages

A modern, active investment strategy ensures a fair balance of risk and return. The broad investment in a vast array of asset classes allows for a significant degree of risk diversification, which may reduce the risk of capital losses. You can sell your YOU INVEST fund at any time at the current redemption price.

Details you should be aware of

Investments on the capital markets are subject to market price fluctuations. Capital loss is possible. Foreign exchange fluctuations may have a negative effect on the price of the fund.

Performance goal and investment strategy

<> offers investors a conservative mix of different asset classes. Within the YOU INVEST product family for retail clients, this is the fund for investors with the least risk appetite. As a result, the expected growth in net asset value is comparatively lower. The focus is on price stability. Our experts continuously monitor the portfolio and optimise it in accordance with the opportunities on the market. The fund management is implemented on the basis of a traceable and structured investment process. Up to 20% of assets under management are invested directly or

via other investments funds in risky assets. In the context of this investment, equities and high-yield bonds, among others, are deemed risky. The risk exposure may fluctuate from 0% to 20% over time.
