Advantages

Broadly diversified investment in commodity companies with little capital investment. Active stock selection based on fundamental criteria. Opportunities for capital appreciation. The fund is suitable as an addition to an existing equity portfolio and is intended for long-term capital appreciation.

Details you should be aware of

The price of the funds can fluctuate greatly (high volatility). The investor mainly bears the risk of the commodity sector as well as the issuer risk of the participating companies. Due to the investment in foreign currencies, the net asset value in Euro can fluctuate due to changes in the exchange rate. Loss of capital is possible. Risks that may be significant for the fund are in particular: credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the fund can be found in the prospectus or the information for investors pursuant to § 21 AIFMG, section II, "Risk

information".

Performance goal and investment strategy

The ERSTE STOCK COMMODITIES invests worldwide primarily in companies in the commodities sector. The fund's investment process is based on fundamental business analysis. As part of the investment strategy, a balanced portfolio from the sectors raw materials and energy as well as a stronger weighting in companies from developed markets is striven for. A hedge against foreign currency risks is generally not provided, but is possible.

Upozornění na riziko podle rakouského zákona o investičních fondech 2011

Since the history of the fund is very short, this performance chart is of little significance.

ERSTE STOCK COMMODITIES may exhibit increased volatility due to the composition of its portfolio: i.e. the unit value can be subject to significant fluctuations both upwards and downwards within short periods of time.
