#### Advantages

Investment in a concentrated portfolio of small and mid sized value stocks. Diversification of risks over several countries and industries. Opportunities for attractive value increase.

#### Details you should be aware of

The price of the funds can fluctuate considerably (high volatility). Due to the investment in foreign currencies, the fund value can fluctuate due to changes in the exchange rate. Capital loss is possible. Since the feeder fund predominantly invests in the master fund, the performance of the feeder fund depends significantly on the performance of the master fund. Other risks that may be of significance for the feeder fund are, in particular, credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the feeder fund can be found in the

**Performance goal and investment strategy**

The ERSTE STOCK VALUE (CZK) serves as a feeder fund for the ERSTE STOCK VALUE fund (master fund). Foreign exchange risks of the master fund are hedged within the feeder fund against the Czech crown. The master fund is an equity fund which invests in selected companies worldwide. The fund's investment process is based on a quantitative pre-selection as well as an analysis of hereby identified companies according to fundamental and technical aspects. The stock selection is conducted with focus on value companies with a small or mid sized market capitalization. A concentrated portfolio is striven for as part of the portfolio construction process. Furthermore, the individual stocks are equally weighted independently of the market capitalization of the respective companies. Ecological and social factors as well as corporate management factors are integrated into the investment process.

The fund employs an active investment policy and is not oriented towards a benchmark. The assets are selected on a discretionary basis and the scope of discretion of the management company is not limited.

For further information on the sustainable focus of ERSTE STOCK VALUE (CZK) as well as on the disclosures in accordance with the Disclosure Regulation (Regulation (EU) 2019/2088) and the Taxonomy Regulation (Regulation (EU) 2020/852), please refer to the current Prospectus, section 12 and the Annex "Sustainability Principles". In deciding to invest in ERSTE STOCK VALUE (CZK), consideration should be given to any characteristics or objectives of the ERSTE STOCK VALUE (CZK) as described in the Fund Documents.
