 Advantages	 Details you should be aware of
Invest in real estate stocks and infrastructure stocks worldwide. Addition to an existing stock portfolio (diversification). Chance of an above-average dividend yield.	Due to investments in foreign currencies, the unit value in euros may be affected by changes in exchange rates. The investor bears the risk of the global real estate and infrastructure stock market. Capital loss is possible. Risks that may be significant for the fund are in particular: credit and counterparty risk, liquidity risk, custody risk, derivative risk and operational risk. Comprehensive information on the risks of the fund can be found in the prospectus or the information for investors pursuant to § 21 AIFMG, section II, "Risk information".

Performance goal and investment strategy

The ERSTE STOCK REAL ESTATE invests in companies from the real estate and infrastructure sectors. Companies from developed countries as well as from emerging markets are considered.

The investment process is based on a rule-based quantitative selection procedure as well as on qualitative considerations. Hedging of foreign currency risks is generally not planned, but possible.

Environmental and social factors as well as corporate governance factors are taken into account in the investment process.
