#### Advantages

- The possibility to have up to a 15%-share of stock instruments in the portfolio increases the fund long-term potential
- Portfolio diversification into several asset classes by one investment
- The currency hedging is actively managed
- Ideal for regular investments

#### Details you should be aware of

- Growing interests may result in a short-term decline in price
- Stock prices may fluctuate considerably
- The fund is actively managed, i.e. its turnover can be high
- Money is normally available within a week
- Minimum investment CZK 300

#### Performance goal and investment strategy

The performance objective of the fund is to exceed the yields on the government bonds of the Czech Republic through combined investments in low-risk bonds and a small share of stocks. It is a mixed open share funds fund with a medium-term recommended investment period. The fund buys investment certificates of open share funds. Its conservative mixed strategy combines money market instruments and bond instruments, the yield potential is given by the stock part of the portfolio whose neutral weight is 10%. the share of the portfolio stock part is

actively managed, and its regional and sector composition is actively managed as well. The currency hedging is actively managed.
