Advantages

- Clients do not have to worry about the management of their fund portfolio• It is intended for clients who would like to get a long-term and comprehensive solution of their investment portfolio by simple investment in one product• Money is usually available within a week

Details you should be aware of

- Due to the investment nature, the value of an investment certificate can fluctuate during the investment tenure. • A broad portfolio diversification reduces risk • Credit risk, risk of interest and the currency hedging is actively managed • Investment certificates are bought at the current price on the business day following the day that money was credited to the fund account • Investment certificates are normally bought on the second business day after an order to sell was given, and always at the current value as of the day that the order to sell was given.

Performance goal and investment strategy

The performance objective of the fund is to exceed the yields on government bonds of the Czech Republic through combined investments in bonds and a share (15-45%) of the stock part in the long term. Vyvážený Mix is a mixed share fund with the status of a funds fund, intended for experienced investors with a medium-term investment horizon. At Česká spořitelna a client can choose from four profile funds which differ in the risk rate. The fund predominantly invests in securities of money market instruments, bond funds and stock funds of collective investing. The share part in the portfolio of Vyvážený Mix is set at 30% at neutral allocation, and investments are focused on major global markets. The share of the stocks in the portfolio is actively managed by the portfolio manager pursuant to the current and expected market situation. The regional and sectoral composition of investments is also actively managed.
