Performance goal and investment strategy

The fund is an equity mutual fund intended for dynamic investors with a long-term investment horizon. Investment objective of the fund is to deliver positive long-term performance through investments in a concentrated portfolio of equities traded in developed markets. In order to achieve this objective the fund manager applies investment strategy known as "stock picking", which is a method of active search for individual stock titles with a long-term growth potential. The share of the equity part can range from 80% to 100%. The portfolio of the fund usually

represents 25 various investments ideas whose weights are usually the same. Due to the significant share of equities in the portfolio and high portfolio concentration, the investment value of the fund can fluctuate significantly in the short-term. In consideration of this investment strategy, the fund is ideal for regular investments and as a part of the equity portion of the investment portfolio.
