Advantages

- A modern, active investment strategy ensures a good balance of risk and return
- The broad investment in a vast array of assets allows for a significant degree of risk diversification in the fund, which may reduce the risk of capital losses
- You can sell your investment at any time at the current redemption price

Details you should be aware of

- Investments on the capital markets are subject to market price fluctuations
- Capital loss is possible
- Foreign exchange fluctuations may have a negative effect on the price of the fund
- the product only for clients of Erste Premier and Erste Private Banking
- one-off payment up to CZK 50,000
- regular deposit up to CZK 1,000

Performance goal and investment strategy

YOU INVEST active offers investors a dynamic mix of different asset classes. Within the YOU INVEST product family for retail clients, this is the fund for investors with the highest risk appetite and is suitable for the long-term building of capital. The price fluctuations may be comparatively significant. Our experts continuously monitor the portfolio and optimise it in accordance with the opportunities on the market. The fund management is implemented on the basis of a traceable and structured investment process.

Disclaimer

Full names of open Mutual funds are given in the fund statutes (prospectuses). Pursuant to rules applicable to collective investment, the manager informs that neither the current or expected performance will guarantee the future performance. Investment in investment certificates contains the risk that the current value of amount invested and yields on the amount will fluctuate; thus return on the amount invested is not guaranteed. All information provided herein is of informative nature only and it should not substitute the statute (prospectus) or give its overall summary. Before using this website/information for investment, you should consult consultants of Česká spořitelna. If any yield is mentioned in the reference material, you should always bear in mind that past yields will not guarantee future yields, that any investment is subject to the risk of value fluctuations and change of exchange rates, and that return on the amount invested or profit margin cannot be guaranteed.
