Performance goal and investment strategy

Balanced fund ESG Mix 50 – responsible investment means a comprehensive investment portfolio which is actively mindful of the policy of sustainable economic development and environmental protection, social principles and the principles of sustainable management. So the Fund's portfolio manager actively searches for attractive and long-term stable investment opportunities in the securities of issuers mindful of social, ethical and environmental aspects. The Fund optimally distributes funds into several types of assets and is suitable for experienced and yield-oriented investors, who are looking in a long-term investment higher return horizon through investment within one Fund. However, they are also willing to accept any increased fluctuation of the value of their investments for their duration. The share of dynamic assets – stock in the Fund, which is about 50% in the long-term, offers very interesting room for a return. The conservative part, represented above all by a broad spectrum of bonds, provides the Fund with stability and balances out the portfolio risk. By maintaining the recommended investment horizon, this investment can offer you an attractive return.
