Performance goal and investment strategy

The fund's performance objective is to significantly outperform Czech government bond yields in the long term by a combination of investments in a substantial 75% share of equities in the portfolio and in bonds. It is intended for experienced and dynamic investors who want to achieve the highest possible long-term return on their investments and already have experience with investing in capital markets, and are also able to accept significant volatility of the investment value. The fund invests mainly in equity instruments with a neutral share of 75% in the portfolio, which represents a greater growth potential, as well as in bond instruments and additionally in money market instruments. Investments are made in the most important world markets. The share of equities in the portfolio is actively managed by the portfolio manager depending on the current and expected market situation. The regional and sector investment composition is also managed actively.
