+ Advantages

What does PDCP INDUSTRY AUTOCALL offer?

- Possibility to obtain an attractive yield of 21% in three years.
- PDCP INDUSTRY AUTOCALL can be automatically repaid early together with payout of an interesting yield of 7% (see Note) already after the first year or at any of the following annual observations. The total yield is then 7% (see Note) for each year that elapsed since the issue date.
- Interesting 55% barrier level of the initial value of the individual

! Details you should be aware of

Please note that the target market of this investment instrument is listed below. If you do not meet any of the listed parameters, you may be outside the specified target market!

The target market defines the set of investors (retail clients) for whom the investment product is intended.

This investment product is intended for investors who:

- have sufficient knowledge and/or experience regarding structured products and shares.
- seek investment profit

- underlying shares for payout of the nominal value of PDCP INDUSTRY AUTOCALL at the date of the final observation.
 - Barrier for automatic early repayment decreasing over in time: 90% (after a year), 80% (after two years).
 - Additional protection mechanism for payout of the nominal value of PDCP INDUSTRY AUTOCALL at its maturity date.
 - PDCP INDUSTRY AUTOCALL is issued in Czech crowns, the investor does not bear the currency risk.
 - Electronic version of the Basic Prospectus is published on the Issuer's website <https://derivative.credit-suisse.com/bp/ch/en/prospectuses/prospectuses/prospectus/ye> or on www.investicnicentrum.cz/prospekty.
 - Electronic version of the Notification of Key Information is published on the website <https://docs.credit-suisse.com> or you can find it on the investment portal www.investicnicentrum.cz
- are able to accept a level of risk that is in accordance with the risk indicator of the product specified in General attributes.
 - In the event of an unfavorable development of the investment, they are able to bear the possible loss, which is illustrated by performance scenarios, see Key Information Document (KID).
 - are interested in holding the product until the maturity specified in General attributes.
- This investment product is not intended for investors (negative product target market), who:
- do not have sufficient knowledge regarding structured investment instruments and shares
 - are unable to bear the loss of invested funds indicated in the Key Information Document (KID) in the event of an unfavorable development of the investment
- The client's compatibility with the product's target market will be evaluated during the purchase process.

- PDCP INDUSTRY AUTOCALL does not guarantee a return on the invested amount and the investor could lose the whole investment or part of it.
- A 100% return on the nominal value of PDCP INDUSTRY AUTOCALL at the maturity date depends on the trend of the market rate of shares - Caterpillar, Siemens and Evonik Industries.
- The PDCP INDUSTRY AUTOCALL holder bears the issuer's credit risk.

More information you will find in the leaflet.

Description

PDCP INDUSTRY AUTOCALL with the option of automatic early repayment provides the opportunity to gain an attractive annual yield of 7% (see Note). The total yield for its three-year duration can then reach up to 21%.

The payout of the yield and the nominal value of PDCP INDUSTRY AUTOCALL is based on the price trend of shares of three important companies the activity of which focuses on the sphere of industry - Caterpillar, Siemens and Evonik Industries. In addition, the construction of PDCP INDUSTRY AUTOCALL allows its early repayment and payout of an attractive yield even in case of a slight decrease or stagnation of the underlying assets. The product may end already after the first year or subsequently each year for its duration depending on fulfilment of conditions for early repayment or at its maturity date.

For more information see the leaflet

Payment notes

How does PDCP INDUSTRY AUTOCALL work?

- The payout of the yield and nominal value of PDCP INDUSTRY AUTOCALL depends on the market rate trend of shares of companies such as Caterpillar, Siemens and Evonik Industries.
- For its duration PDCP INDUSTRY AUTOCALL can be automatically paid out early once a year, if the value of each individual underlying share at the observation date will be equal or higher than the comparative value of the underlying share at the relevant observation date.
- If the automatic early repayment condition is not met, PDCP INDUSTRY AUTOCALL continues to the next date of possible repayment.
- If PDCP INDUSTRY AUTOCALL is automatically repaid early, the investor shall receive its nominal value and a yield of 7% (see Note) for each year that elapsed since the issue date.
- If the automatic early repayment is not made and at the date of fixing the closing value of the individual underlying shares the price of any of the shares does not fall below the barrier of 55% of its initial value, the nominal value of PDCP INDUSTRY AUTOCALL and the total yield of 21% (equivalent of three annual yields of 7% (see Note)) shall be paid out at the maturity date.
- If the automatic early repayment is not made and at the date of fixing the closing value of the individual underlying shares the price of at least one of the underlying shares falls below the barrier of 55% of its initial value and at the same time the closing value of any of the remaining shares shall not be equal or higher than its initial value, 100% of the nominal value of PDCP INDUSTRY AUTOCALL shall be paid out decreased by the loss of the worst of the three shares since the date of fixing its initial value until the date of fixing its closing value. The investor will incur a loss which represents more than 45% of his initial investment and no yield shall be paid out.

You will find more information and the examples in the leaflet

Settlement

- Maturity shall be on 1 March 2024
- The disbursement of the yield and nominal value shall be conducted by Česká spořitelna
- It takes three working days to settle the buying and selling of the Premium Bond

Secondary market

- Minimum purchased amount: 1 piece
- Price for the provision of early redemption: 2% of the transaction volume
- Price at subscription: 100%, without a fee
- Liquidity: daily according to current market prices published in the Exchange Rate List of Česká spořitelna, a.s.

Note: PDCP INDUSTRY AUTOCALL pays out potential yields in a lump sum at its early or regular maturity date, the consolidated interest is not claimed.

Note 2: Product risk weight is on a scale of 1 to 7 from a potentially lower risk and yield of 1 to a potentially higher risk and yield of 7, assuming that you will keep the product until its maturity date. The real risk may significantly differ in case you sell the product prematurely. The product risk weight is a guide for a comparison of the risk rate of this product compared with other products. It shows how likely it is that you can lose money as a consequence of movements on the markets, or because the issuer will be unable to pay the money.

Disclaimer

In the period before maturity, the bond price can fluctuate above and below the bond face value depending on the development of the interest rate and underlying asset. A bond can be sold even before the maturity date, for the price pursuant to the pricelist of the issuer.
