since inception

The information on the locked yield of products (in % p.a.) is only informative and is not binding for actual payment. The final yield value that is to be paid for the full product duration will be calculated shortly before its maturity. The previous performance will not guarantee the future performance.

Source: Česká spořitelna, a. s.

 Advantages

- Deposit tenure 1 year.
- The deposit is managed in USD.
- Premium deposits and their yields are subject to insurance alike other term deposits.
- The deposits are deposited at Česká spořitelna and are set up and managed free of charge.

 Disadvantages

- The minimum investment is \$ 500 (and multiples of \$ 100).
- The offer applies to deposits set up from 27/03/2019 till 25/04/2019.
- The period of floating interest rates lasts from 01/05/2019 to 29/04/2020.
- Till 29/04/2019, the uniform rate of 1,60% p. a. is applied to the deposit
- interest yields are subject to the same tax as other deposit products
- with selected issues of premium deposits, the Bank may determine

the deposit minimum limit

### Secondary market

The premium deposit with the features as stated above may only be set up till deposits in the amount corresponding to the type of premium deposit as determined by the Bank have been paid down. Currency premium deposits may be terminated ahead of schedule at ČS branches at any time. In such a case, however, a fee amounting to 2% of the withdrawn amount is charged due to additional bank costs.

### Premium deposits FX | Description

Premium deposits are the right products to deposit funds that are free for a limited period of time. The premium of the currency premium deposit depends on the development of the determined currency pair. Interest is applied every day at a higher or lower rate depending on whether the exchange rate is inside or outside the determined range. The range is changed for every month pursuant to the last rate in the previous month. The total deposit yield is a sum of yields for all days of the premium period.

<b>Minimum investment</b>	500
<b>Maximum yield</b>	3.10% p.a.

### Description Yield Calculation

Interest at a rate of 1,60% or 3,10% p. a. is paid on the premium deposit every day. The higher interest rate will be applied if the USD/EUR exchange rate as announced by CNB for the respective day is inside the determined range (including limiting values). Thus the resulting deposit yield will be a sum of the yields for individual interest days. The first determining range will be set pursuant to the exchange rate as announced by CNB on 30/04/2019. The limit of the determining range will be 10 cents (USD) below the rate. The yield depends on the development of the USD/EUR exchange rate as announced by CNB for every day. The higher yield falls on the day that dollar becomes stronger in the determined range in comparison with its rate at the beginning of the month. The determining range for the determination of the premium will be set monthly pursuant to the current value of the exchange rate, in the range from USD 0 to 0.10. Principal and yield payout from 30/04/2020.
