### Description Yield Calculation

Interest at a rate of 1.25% or 4.25% p. a. is paid on the premium deposit every day. The higher interest rate will be applied if the CZK/EUR exchange rate as announced by CNB for the respective day is inside the determined range (including limiting values). Thus the resulting deposit yield will be a sum of the yields for individual interest days. The first determining range will be set pursuant to the exchange rate as announced by CNB on 31.12.2021. The limit of the determining range will be 10 heller (CZK) below the rate. The yield depends on the development of the CZK/EUR exchange rate as announced by CNB for every day. The higher yield falls on the day that CZK becomes stronger in the determined range in comparison with its rate at the beginning of the month. The determining range for the determination of the premium will be set monthly pursuant to the current value of the exchange rate, in the range from CZK 0 to -0.10.  
Principal and yield payout from 28.12.2022.

### Secondary market

The premium deposit with the features as stated above may only be set up till deposits in the amount corresponding to the type of premium deposit as determined by the Bank have been paid down. Currency premium deposits may be terminated ahead of schedule at ČS branches at any time. In such a case, however, a fee amounting to 2% of the withdrawn amount is charged due to additional bank costs.
