Description

PDCP TRANSATLANTIC AUTOCALL 2 with the option of automatic early repayment provides the opportunity to gain an attractive annual 5.85% yield (see Note). The total yield for its three-year duration can then reach up to 17.55%.

The payout of the nominal value of PDCP TRANSATLANTIC AUTOCALL 2 is conditioned upon the development of prices of two key share indices: EURO STOXX 50® and S&P 500® which include largest publicly traded European and American companies. In addition, the construction of PDCP TRANSATLANTIC AUTOCALL 2 allows its early repayment even in case of a slight decrease or stagnation of the underlying indices. PDCP TRANSATLANTIC AUTOCALL 2 may end already after the first year or subsequently each year for its duration depending on fulfilment of conditions for early repayment or at its

maturity date.

Payment notes

How does PDCP TRANSATLANTIC AUTOCALL 2 work?

- Return on the nominal value of PDCP TRANSATLANTIC AUTOCALL 2 depends on the trend of market rates of EURO STOXX 50® and S&P 500® underlying indices.
- Initial value (see Note 2) of EURO STOXX 50® and S&P 500® underlying indices shall be fixed on 24 January 2022.
- Observation of the trend of EURO STOXX 50® and S&P 500® indices will take place from 25 January 2022 until 24 January 2025 (the daily closing prices of indices are decisive).
- Yield of 5.85% p.a. of the PDCP TRANSATLANTIC AUTOCALL 2 nominal value is paid out annually for its duration and is always paid out, i.e. regardless of the trend of the underlying indices.
- Barrier is fixed at the level of 49% of the fixed initial value (see Note 2) of the underlying indices, touching the barrier does not mean breaking it.
- For its duration PDCP TRANSATLANTIC AUTOCALL 2 can be automatically paid out early once a year, if the value of both underlying indices at the observation date will be equal or higher than the comparative value of the underlying index at the relevant observation date.
- If the automatic early repayment condition is not met, the investor will receive yield of 5.85% of its nominal value and PDCP TRANSATLANTIC AUTOCALL 2 continues to the next date of possible repayment.
- If PDCP TRANSATLANTIC AUTOCALL 2 is automatically repaid early, the investor shall receive 100% of its nominal value and an annual 5.85% yield of its nominal value. A claim to later annual yields ends with early repayment.
- If the automatic early repayment is not made and during observation the value of some underlying index (daily closing price) never falls below the barrier of 49% of its initial value (see Note 2), 100% of the PDCP TRANSATLANTIC AUTOCALL 2 nominal value and the last fixed yield of 5.85% p.a. of its nominal value shall be paid out at the maturity date.

You will find more information and examples in the leaflet

regular maturity date.

Note 2: The initial value will be calculated for the EURO STOXX 50® and S&P 500® indices providers based on the closing prices of the underlying assets on the relevant stock exchanges on 24 January 2022.

Note 3: Product risk weight is on a scale of 1 to 7 from a potentially lower risk and yield of 1 to a potentially higher risk and yield of 7, assuming that you will keep the product until its maturity date. The real risk may significantly differ in case you sell the product prematurely. The product risk weight is a guide for a comparison of the risk rate of this product compared with other products. It shows how likely it is that you can lose money as a consequence of movements on the markets, or because the issuer will be unable to pay the money.
