- The holder of PDCP CHEMICALS AUTOCALL bears the issuer's and guarantor's credit risk.

You will find more information in the leaflet.

Description

PDCP CHEMICALS AUTOCALL with the option of automatic early repayment provides an opportunity to gain an attractive annual yield of 16% (see Note). The total yield for its three-year duration may then reach up to 48%.

The payout of both potential yield and nominal value of the PDCP CHEMICALS AUTOCALL is derived from the price trend of shares of three significant companies focusing on the chemical industry – Albemarle, Linde and Nutrien. PDCP CHEMICALS AUTOCALL moreover enables its early repayment during growth and limited decline of the underlying shares already after the first year of its duration.

The chemical industry significantly contributes to the development of the global economy. It provides key deliverables to other industrial sectors such as engineering, construction industry, consumer industry and is also a crucial supplier for agriculture. Erste Bank Group analysts positively rate the future prospects of all three monitored companies Albemarle, Linde and Nutrien.

- Issuer: SG Issuer SA
- Guarantor: Société Générale SA (Standard & Poor's A /Moody's A1 / Fitch A)

- Underlying shares: Albemarle Corp, Linde PLC and Nutrien Ltd
- Subscription period: 1 December 2022 (12.00)–15 December 2022 (23.59)

You will find more information in the leaflet.

Payment notes

How does the PDCP CHEMICALS AUTOCALL work?

- The payout of potential yield and nominal value of the PDCP CHEMICALS AUTOCALL depends on the market trend of shares of companies such as Albemarle, Linde and Nutrien.
- For its duration the PDCP CHEMICALS AUTOCALL can be automatically paid out early, if the value of each individual underlying share at the monitoring date equals or is higher than the comparative value of the underlying share at the relevant observation date.
- If the automatic early repayment condition is not met, the PDCP CHEMICALS AUTOCALL continues to the next date of possible repayment.
- If the PDCP CHEMICALS AUTOCALL is automatically repaid early, the investor shall receive its nominal value and a yield of 16% (see Note) for each year that elapsed since the issue date.
- If the automatic early repayment is not made and at the date of fixing the closing value of the individual underlying shares the price of any of the shares does not fall below the barrier of 55% of their initial value, the nominal value of PDCP CHEMICALS AUTOCALL and the total yield of 48% (equivalent of three annual yields of 16 % (see Note)) shall be paid out at the maturity date.
- If the automatic early repayment is not made and at the date of fixing the closing value of the individual underlying shares the price of at least one of the underlying shares falls below the barrier of 55% of its initial value and at the same time the closing value of any of the remaining shares shall not be equal or higher than 100% of their initial values the payout of the nominal value of PDCP CHEMICALS AUTOCALL shall be decreased by the loss of the worst of the three shares since the date of fixing its initial value until the date of fixing its closing value. The investor shall incur a loss of more than 45% of his initial investment and no yield shall be paid out to him.

You will find the principle of additional protection mechanism and examples in the leaflet.

Settlement

- Maturity shall be 22.12.2025
- Česká spořitelna pays out the yield and the nominal value
- It takes three working days to settle the buying and selling of the Premium Bond

Secondary market

- Minimum purchased amount: 1 piece
- Price for the provision of early redemption: according to the current Price List (status as at the Premium Bond issue date: 2% of the transaction volume)
- Price at subscription: 100%, without a fee
- Liquidity: daily according to current market prices, indications in the Exchange Rate List of Česká spořitelna, a.s.

Note: PDCP CHEMICALS AUTOCALL pays out potential yields in a lump sum at its early or regular maturity date, the consolidated interest bearing is not claimed.

Note 2: The initial value will be calculated based on the closing prices of the underlying

shares on 15 December 2022.

Note 3: You will find the precise expression of product costs in the PDCP CHEMICALS AUTOCALL Subscription Instruction.

Note 4: Product risk weight is on scale of 1 to 7 from a potentially lower risk and yield of 1 to a potentially higher risk and yield of 7, assuming that you will keep PDCP CHEMICALS AUTOCALL until the maturity date. The real risk may significantly differ in case you sell the product prematurely.

Disclaimer

In the period before maturity, the bond price can fluctuate above and below the bond face value depending on the development of the interest rate and underlying asset. A bond can be sold even before the maturity date, for the price pursuant to the pricelist of the issuer. Our consultants will give you detail information on the advantages and risks of investment in bonds.
