100% return of the nominal value of PDCP TECHNOLOGY AUTOCALL 4 at the maturity date is not guaranteed because it depends on market rate development of the underlying shares – ASML, Capgemini a SAP.  
The holder of PDCP TECHNOLOGY AUTOCALL 4 bears the credit risk of the issuer and guarantor.

More information you will find in the leaflet.

## Description

**PDCP TECHNOLOGY AUTOCALL 4** with the option of an automatic early repayment makes it possible to gain an attractive annual yield of 9.5% (see Note). The total yield for its three-year duration may then reach as much as 28.5%.

The payout of the yield and nominal value of PDCP TECHNOLOGY AUTOCALL 4 is subject to the price development of shares of three significant technological companies ASML, Capgemini and SAP. In addition, the construction of PDCP TECHNOLOGY AUTOCALL 4 makes its automatic early repayment possible even in case of the slight fall or stagnation of underlying assets. PDCP TECHNOLOGY AUTOCALL 4 may be repaid early already after the first year or the following year depending on the fulfilment of conditions for early repayment.

- Issuer: Crédit Agricole CIB, Crédit Agricole SA Group
- Underlying: ASML HOLDING NV, Capgemini SE, SAP SE
- **Subscription period: 16. 5. 2024 (9.00)–10. 6. 2024 (16.00)**

More information you will find in the leaflet.

### Payment notes

#### How does PDCP TECHNOLOGY AUTOCALL 4 work?

- The payout of the potential yield and nominal value of PDCP TECHNOLOGY AUTOCALL 4 depends on the market rate development of shares of companies such as – ASML, Capgemini a SAP.
- For the duration of PDCP TECHNOLOGY AUTOCALL 4, it can be automatically repaid early once a year, if at the observation date the value of each individual underlying share will be equal or higher than the comparable value of the underlying share at the relevant observation date.
- If the automatic early repayment condition is not met, PDCP TECHNOLOGY AUTOCALL 4 continues to the next possible repayment date.
- If PDCP TECHNOLOGY AUTOCALL 4 is automatically repaid early, the investor will receive its nominal value and yield of 9.5% (see Note) for each year that passed since the issue date.
- If there is no automatic early repayment made and at the date of fixing the closing value of individual underlying shares the value of any of them does not fall below 50% barrier of its initial value, the nominal value of the premium debt security and the total yield of 28.5% (equivalent of three annual yields in the amount of 9.5% (see Note)) will be paid out at the maturity date.
- If there is no automatic early repayment and at the date of fixing the closing value of individual underlying shares the price of at least one underlying share falls below the barrier of 55% of its initial value, and at the same time the closing value of any of the remaining shares will not be equal or higher than its initial value, the payout of the nominal value of PDCP TECHNOLOGY AUTOCALL 4 at the maturity date will be decreased by the loss of the worst of the three shares since the date of fixing its initial value until the date of fixing its closing value. The investor will lose more than 50% of invested money and no yield will be paid out to him.
- Principle of additional protection mechanism: if there is no automatic early repayment and at the date of fixing the closing value of individual underlying shares.
